

**ZIMMER+ROHDE**

## **CITY VIBES | FALL 2022**

One of the most exciting aspects of urban living is the almost limitless possibilities that are available to everyone, whether permanent residents or visitors stopping by for a weekend or on a business trip to soak up the pulsating atmosphere of a metropolis. The concentration of different lifestyles, cultural influences and art forms continually inspires the creation of new and surprising ideas for collective life in the city. Interiors blossom into creative collages; private spaces open up to reveal vivid personal portraits of the people living in them. Public spaces such as hotels, restaurants and bars can reference their immediate surroundings to imbue the interior setting with a distinctive identity – a sense of place – creating a welcoming feel of home. Both expressiveness and functionality are equally important.

The new Zimmer + Rohde collection does justice to this sophisticated mix of extremely diverse expectations by valuing the creativity of artists and artisans and emphasizing new features by using

innovative material and manufacturing techniques.

CITY VIBES boasts a casual, natural look with a focus on the greatest range of applications possible.

A photo showcase for the collection was held in an apartment once owned by Auguste Perret, one of the pioneering architects and city planners of the twentieth century. This architectural jewel in the heart of Paris dating from 1934 is the perfect backdrop for these expressive textile personalities. The influence of this gorgeous, timeless mid-century style, which is inherent in some of our new designs, is exquisitely highlighted by the interplay of incredibly modernist architectural elements.

Functionality and elegance combine to create a harmonious balance in this interior, which remains unchanged to this day – an homage to what excellent design can achieve and embody.

## PASSENGER FR | 10932

With the appearance of a classic woolen fabric, PASSENGER FR impresses at first glance with its modern clean surface. A closer look reveals the multi-colored yarn mélange, adding special depth to the fabric's color palette. The durable upholstery fabric is knitted, giving it elastic properties that are ideal for the upholstery of rounded furniture shapes. PASSENGER FR is made of 100% flame retardant polyester and complies with the European standard EN 1021 for upholstery fabrics.

Upholstery, flame-retardant, fabric width: 146 cm,  
19 colours, 100% PES FR, regionally sourced

## ROOFTOP FR | 10933

ROOFTOP FR is a durable jacquard fabric with a universal all-over design. Velvety chenille yarn in the weft creates a pleasant feel and a soft three-dimensional effect. Made of 100% flame retardant Trevira CS, the washable upholstery fabric is also recommended for highly frequented living situations in both private and public spaces.

Upholstery, flame-retardant, fabric width: 150 cm,  
30 colours, 100% PES CS

## SKYLINE FR | 10941

The woven relief of the semi-transparent decor fabric SKYLINE FR is light and airy. The contemporary color palette includes versatile neutral as well as intense shades with strong luminosity. SKYLINE FR is made of 100% permanently flame retardant Trevira CS and is therefore equally suitable for use in private and public spaces.

Decoration, flame-retardant, fabric width: 285 cm,  
9 colours, 100% PES CS

## HYDE PARK | 10934

HYDE PARK mirrors the dynamic and cultural diversity of a vibrant metropolis. Printed digitally onto finest cotton satin, the sweeping generous brushstrokes form to create a dynamic all-over design. The richly contrasting combination of the painterly color fields and the fine lines is impactful from a distance while also convincing on closer inspection with its attention to detail.

Decoration, fabric width: 150 cm, 4 colours, 100% CO

## PICCADILLY FR | 10935

PICCADILLY FR is inspired by the lively urban labyrinth of a vibrant city. The fine broken lines of the geometric jacquard design set rhythmic color accents on the smooth, monochrome fabric surface. Thanks to its flame-retardant material composition, the dense yet soft-flowing decorative fabric is equally suited to private and public spaces and has excellent acoustic properties.

Decoration, flame-retardant, fabric width: 143 cm,  
4 colours, 100% PES CS

## TIMES SQUARE FR | 10936

“Crossroads of the world” is what New Yorkers call the famous TIMES SQUARE, after which this expressive print design on velour is named. Bright light reflections sparkle on the contrasting dark background, reminiscent of the countless neon signs that line the busy square where locals and tourists gather together to celebrate one of the biggest New Year’s Eve celebrations in the world. Our TIMES SQUARE design is a decorative upholstery fabric for the home as well as for public areas such as restaurants, theaters and hotel interiors.

Decoration, upholstery, flame-retardant, fabric width: 144 cm,  
4 colours, 100% PES CS

## BROADWAY | 10937

The shimmering lights of one of the world's most famous theater districts were transformed for the fabric BROADWAY, bringing together innovative technology and artisanal skills in a clever combination of digital and hand printing. BROADWAY has a purist look which nevertheless exudes artistic expression.

Decoration, fabric width: 145 cm, 4 colours, 60% CO, 40% LI

## HIGH LINE | 10938

The contrast of organic plant life in a post-industrial setting around New York's popular High Line Park is what makes this such an extraordinary oasis of relaxation. The natural and laid-back decorative fabric HIGH LINE does the same for today's modern spaces. It embodies a relaxed sensuality in the form of a very soft flowing fabric in a fine linen blend. The color palette is inspired by nature's tonality with sophisticated yarn mélanges. HIGH LINE is sustainable not only because of its timeless beauty, but because it is made in a Belgian weaving mill from European yarns under CO2-neutral conditions.

Decoration, fabric width: 150 cm,  
6 colours, 67% LI, 27% PAN, 6% PES, regionally sourced,  
resource efficient production, eco friendly product

## METRO | 10939

METRO's special feature lies first and foremost in the material. A special yarn consisting of pleated non-woven strips was developed for the innovative, floor-to-ceiling fabric, which looks like paper but has all the superior qualities of an easy-care textile. The complex jacquard construction was designed to give the fabric the appearance of a loose weave. This imbues METRO with a natural and handcrafted look and feel.

Decoration, fabric width: 310 cm, room-height,  
6 colours, 100% PES

## VILLE FR | 10940

The semi-transparent decorative fabric VILLE FR looks like a natural linen, despite being made of 100% flame retardant polyester. The irregular jacquard structure emphasizes the natural look of the two-tone mélange, in which the finely textured fibers have been spun into yarns with a sophisticated moiré slubbing.

Decoration, flame-retardant, fabric width: 310 cm, room-height, 14 colours, 100% PES FR

## NIGHT LIFE FR | 10942

NIGHT LIFE FR is a natural-looking decorative fabric with a soft flowing drape. Its pleasantly matt surface and lively vertical texture is reminiscent of a natural linen fabric. The reverse side is always black, woven with an extremely high thread count. This allows the remarkable blackout effect of 98%. Made of 100% flame retardant Trevira CS, NIGHT LIFE FR is the right choice for any situation where day needs to be turned into night, whether in private bedrooms, hotel rooms or public lecture halls.

Decoration, dimout, flame-retardant, fabric width: 300 cm, room-height, 8 colours, 100% PES CS

## OVERNIGHT FR | 10943

OVERNIGHT FR impresses first and foremost with its silky sheen and soft flowing drape. The elegantly tactile and graphic jacquard texture can be optimally integrated into the most diverse room concepts. Due to the deliberate double-sided construction of the fabric, there is no reverse side, only an additional choice – one side a little lighter, the other darker. That means that the densely woven blackout fabric can be used not only directly at the window, but can also serve as an excellent room divider, which also benefits the room acoustics. Made of 100% flame retardant Trevira CS, OVERNIGHT FR is equally suited to private or public spaces.

Decoration, dimout, flame-retardant, fabric width: 300 cm, room-height, 12 colours, 100% PES CS
