Product data sheet

Inspired from a sculpture by Louise Bourgeois, HAMPTON PATCH is a quilted four color patchwork of cut trapezoids pieced together to create rhythm and depth. We use the age old method of hand dying to achieve the variation in color for each of the patches. A true labor of love, it takes about 20 skilled women three to five days to produce 25 meters of fabric using semi-automated sewing machines to piece the fabric swatches together. HAMPTON PATCH is a hand crafted work of art.
