ZIMMER+ROHDE

Product data sheet

This quality consists of 52% recycled polyester, which is obtained from used PET bottles.

This elegant and softly falling satin is the latest development of our successful classic SOLICE, now with a silk matte surface. Like its predecessor, SOLICE MAT RE FR is flame retardant. However, for this new quality a 52% recycled polyester yarn is used, which is obtained from used PET bottles, in order to place as little as possible a strain on our environment whilst still maintaining high functional demands.

Zimmer + Rohde

Solice MAT RE FR

ARTICLENUMBER	10886992
COLLECTION	Personal Landscapes
NUMBER OF COLORS	40
CATEGORY	Fabrics
MOTIVE	Uni
FABRIC WIDTH	300 cm
EFFECTIVE WIDTH	-
WEIGHT	263 g/m²
MATERIAL	52% Polyester (recycled), 48% Polyester (Trevira CS)
MARTINDALE	-
