ZIMMER+ROHDE

Product data sheet

A bouclé yarn specially developed for Zimmer + Rohde creates the character of the sustainable article VIVID RE FR. 60% polyester from recycled PET bottles is used in the weft, the origin of which is no longer noticeable in the soft yarn. Woven on a lino warp, the bouclé can blossom softly in 12 standard colors. Its additional suitability for the Contract market allows for a wide and varied range of applications.

Zimmer + Rohde

Vivid RE FR

ARTICLENUMBER	10909656
COLLECTION	Atelier
NUMBER OF COLORS	12
CATEGORY	Fabrics
MOTIVE	Uni
FABRIC WIDTH	300 cm
