

ZIMMER+ROHDE

## Product data sheet

Angora goat hair is one of the most precious and at the same time durable materials from which you can weave a velour fabric. The precious wool also has additional special features: Mohair is extremely fine and silky, light and durable, wrinkle-resistant, water-repellent and at the same time moisture-absorbent. It is cooling in summer and warming in winter.

As with silk or linen, this unique natural material reflects colors in a very special way. Each individual shade develops its own extraordinary depth and dimension.

SPLENDID MOHAIR will enchant you with an extraordinary color palette ranging from elegant and restrained to intensely luminous.

Zimmer + Rohde
