

ZIMMER+ROHDE

Product data sheet

Home textiles, like fashion, are cyclical, and older styles can be reproduced with a fresh take for today. CARAVAN is the perfect example of this, modernizing the traditional boucle with a natural quality and hand-made look. This upholstery fabric is woven on a linen viscose warp with a very thick weft of 100% pure slub wool. The use of wool adds to the sustainability of the fabric, and the finishing process is chemical free with respect to the environment. CARAVAN has a special old world quality to it, and is a classic addition to the Travers line.
