

ZIMMER+ROHDE

Product data sheet

Achieving a natural appearance was the aim when developing this transparent, single-colour fabric. A discreet fabric structure in both horizontal and vertical directions is created using a fine thread effect. This dry look is contemporary and modern. White, cream, beige, greige and grey variations together with colour accents beckon you to give your design ideas free rein. The fabric is room-height and washable. Miles is a highly promising basic piece and a wonderful addition to the ZR palette of single-colour fabrics.
