

ZIMMER+ROHDE

## Product data sheet

Luna is a new addition to the multicolour collection of basic fabrics by Zimmer + Rohde. The pure cotton fabric has a slightly grainy weave and its surface is brushed during the final stage of production. The fabric's soft drape makes it suitable for use as a decorative material, while its sturdiness makes it equally well-suited to being used for upholstery. Luna is available in 63 different colours and can be used for a variety of applications.
