

ZIMMER+ROHDE

Product data sheet

Named for Hugh Ferriss, the architect and illustrator who loved skyscrapers, FERRISS features a bold geometric labyrinth reminiscent of a metropolis. Produced on an 18-head embroidery machine, foam is first placed precisely on top of a lightly stitched outline before a high density satin stitch is used to cover the foam completely. A delicate rice stitch is then applied along the edge of the design, creating a sleek, three-dimensional embroidery. Available in 7 colours, FERRISS is a true showstopper.
