

ZIMMER+ROHDE

Product data sheet

Aguayo is inspired by traditional stripes, handwoven on the high plains of Peru and Bolivia. This fabric is handcrafted from the yarn dyeing process, to the hand weaving, executed on traditional wooden looms in Kerala, India. This craftsmanship contributes to this fabric's beauty. After weaving, excess dyes are washed out, softening the material in the process. Abrasion resistance testing by the Martindale method achieves a score of 100,000 cycles.
