

ZIMMER+ROHDE

Product data sheet

TIDE is the understated companion for any wall and reveals at second glance a striking, practically three-dimensional sense of depth. Its fragmented surface creates subtle, shimmering effects that form an eye-catching contrast to the rough structure which covers the entire surface like an organic mesh. In six natural colours that alternate from bold and vivid to soft and understated, TIDE blends effortlessly into the room and leaves the option open for further creative design choices.
