

ZIMMER+ROHDE

Product data sheet

This lavish digital print is a special highlight in the wallpaper collection. The extravagant flower design was rediscovered in our Z+R archive and reinterpreted. The careful revision and recolouring resulted in an impressive modern, multi-coloured article. Our collection also includes a textile version of this design as a decorative fabric in a variety of colours. The natural raffia fabric was laminated onto a metallic shimmering surface as the printing base and it gives this wall covering a particular texture and depth. We offer the single-colour fabric Fiori Plain to coordinate with Fiori Wall.
