Product data sheet

The paintings of expressionist Alexej von Jawlensky served as the inspiration for this extravagant digital print. In the style of the artist's paintings that were inspired by Japanese woodcuts, the different colour patches of the decorative fabric FACES come together to form a collage design. The organic face shapes are embellished by geometrical, overlapping forms and handdrawn contours. Its unusual design and vibrant interplay of colours make FACES the most extroverted item of this collection.
