ZIMMER+ROHDE

Product data sheet

The voluminous decorative fabric CIRCUS conveys craftsmanship and materiality. The alternating sequence of different warp yarns gives this textile its particular charm. Each colour has a unique warp sequence. A variety of yarns and threads were carefully selected to create a fascinating mix, which, combined with a contrasting colour, has the appearance of a handcrafted, vertical stitch pattern. Its special finishing, which ensures that both the warp and weft yarns lie loosely on the fabric without losing their stability, is what gives CIRCUS its volume.
