

ZIMMER+ROHDE

Product data sheet

ZEPHYR is woven in Belgium from OEKOTEX-certified yarn. Its composition, 100% mass-dyed polypropylene, ranks among the best in the indoor and outdoor fabric market. It ensures excellent color fastness to light and offers high resistance to chlorinated and salty water, mold, and the elements. Polypropylene is naturally hydrophobic, allowing ZEPHYR to provide water resistance without the need for additional treatment. It also dries quickly, making it ideal for outdoor furniture.
