

ZIMMER+ROHDE

Hodsoll McKenzie

Van Alen

Product data sheet

Despite its bold all-over embroidery and sturdy cotton base fabric, VAN ALEN is a soft and snuggly material. Available in a captivating shade of black, a modern rust tone and an elegant beige hue, this fabric opens up a world of creative freedom. Its design evokes the monumental architecture of the first skyscrapers in 1920s America, such as the Chrysler Building designed by William Van Alen.

ARTICLENUMBER	21248835
COLLECTION	BRIDGE
NUMBER OF COLORS	2
CATEGORY	Fabrics
