Product data sheet

The craftsmanship involved in creating BOSQUE MOIRE is passed down from generations before. The warp and weft are first yarn dyed and then woven to create a subtle ottoman weave effect. The fabric is then fed through cylinders that determine and press the moiré pattern onto the cloth, ensuing in an incredibly elegant, organic pattern. BOSQUE MOIRE is available in six colours, from pale ivory and oyster, to soft blush and sky, finishing with a dusty patina and rich emerald.
